COAST GUARD RELEASES VIDEO OF SALVAGE OPERATIONS ON BARGE DM 932

NEW ORLEANS - Coast Guard video is available of the salvage and cleanup operations of the damaged barge DM 932 that spilled up to 420,000 gallons and is now resting against the Crescent City Connection Bridge near downtown New Orleans Thursday, July 31, 2008.

The video displays workers welding padeyes onto the barge, which will facilitate lifting the barge safely out of the water during salvage operations. The High Volume Open Sea Skimmer System vessel is featured in the video as well.
